

Health & Vitality

For healthier fish - the natural way.

If you've invested time, money and effort in your fish, you'll want to make sure they stay healthy and that's why EcoPure Pond System has created a probiotic treatment, Health & Vitality. This is a chemical-free, symbiotic culture that helps protect your fish from infection and naturally promotes good health and growth.

Health & Vitality prevents attack from waterborne pathogens and improves respiration and growth potential of your fish. And it's completely chemical free.

How does Health & Vitality work?

It works by combating pathogens in two main ways:

Firstly, it introduces beneficial micro-organisms to out-compete the pathogens and deny them nutrients and room to grow.

Secondly, Health & Vitality's unique formulation provides competitive exclusion, which creates a physical, living barrier on the body of the fish. This prevents your fish being attacked by waterborne pathogens.

Health & Vitality also stabilises the dissolved oxygen (DO) in the pond water, encouraging healthy populations of micro-organisms and promoting a healthy, stable ecosystem within your pond and biological filter, ultimately improving respiration and the growth potential of your fish.

Trust nature to come up with the perfect way to protect your fish!

Instructions for Use

- How to use Health & Vitality
Apply one dose per week for two weeks, at a rate of 25 ml per 1,000 litres of pond water.

- After week two, dose weekly at a rate of 12.5 ml per 1,000 litres of pond water.
- How to dose your pond
Shake bottle before use. Dilute the correct quantity of Health & Vitality into a clean vessel containing 10 litres of pond water. Pour the liquid around the pond as evenly as possible.

Note: Adequate aeration is necessary for optimum performance.

Quality Standards & Safety QA/QC

- The cultures used in Health & Vitality are completely safe for fish and plants.
- All EcoPure products are certified by an independent standards laboratory.
- More than one EcoPure Pond System treatment can be used at the same time.

Health & Safety

- Do not ingest. Avoid contact with open wounds. Wash contacted skin with soap and water. If splashed in eyes, wash with water for 10 minutes.

Caution: Keep out of reach of children.

Storage

- Store in a cool dark place (1- 25°C - best stored at 4°C).
- Use within 3 months after opening.

Treatment Capacity

- 1 Litre of Health & Vitality treats
 - c78,000 Litres
 - c17,000 Gallons

Product Range

- Health & Vitality is available in a 1 Litre size.
