

Nexus Upgrade Kits

Upgrade solutions for the Nexus

Evolution Aqua have now made it possible to upgrade every model of the Nexus filtration system to incorporate the new and improved features that are present on the current Nexus 210 and 310 models.

Whether you are looking to install the revolutionary Eazy filter or you simply want to add an Overflow / Universal By-Pass Kit to your Nexus, it is all possible. Select the upgrade kit you need from the options below.

Type 1 - Nexus Upgrade Kit (Eazy Retro Kit) (For Nexus filters manufactured before 2006)

The Type 1 Upgrade Kit upgrades all Nexus filtration systems manufactured before 2006, without an Eazy centre chamber, to a Nexus system that will have an Eazy. This kit contains all the components you need to make this upgrade.

Type 1 - Nexus Overflow / Universal By-Pass Kit (For Nexus filters manufactured before 2006)

The Type 1 Overflow / Universal By-Pass Kit allows you to add an overflow pipe to your Nexus filtration system, that was manufactured before 2006. This kit only contains the components needed to fit an overflow pipe and a lid.

Type 2 - Nexus Upgrade Kit (For Nexus manufactured between 2006 - 2009)

The Type 2 Upgrade Kit allows all Nexus filtration systems manufactured between 2006 and 2009, with the original Eazy centre chamber, to upgrade to a Nexus system that will have the latest Eazy. This kit contains all the components you need to make this upgrade. Available for Nexus 200 and 300.

Type 2 - Nexus Overflow / Universal By-Pass Kit (For Nexus manufactured between 2006 - 2009)

The Type 2 Overflow / Universal By-Pass Kit allows you to add an overflow pipe to your Nexus filtration system, that was manufactured between 2006 and 2009. This kit only contains the components needed to fit an overflow pipe and a lid.
